

# Enquiry form roof top installation

Please complete as much information as possible.  
You'll save ourselves unnecessary call backs while speeding up the process and tender preparation. Thank You!

Date of enquiry:

Target issue date:

Customer's name:  Phone/Fax:

Contact:  Email:

Address:  Town / ZIP:

**Project information:**

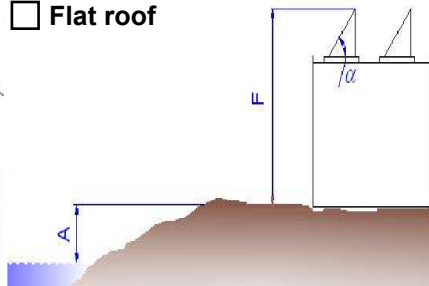

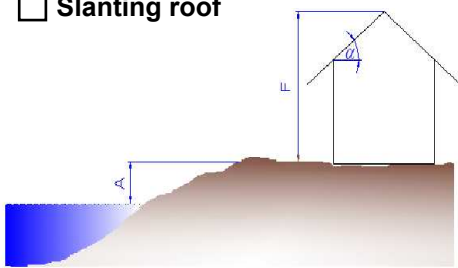

Project reference:

Country + ZIP code  Town

**Dimensions and alignment of the building:**

Slanting roof

Flat roof

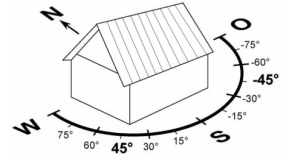

Height above sea level H [m]:

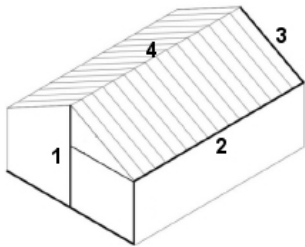

Height of building F [m]:

Pitch  $\alpha$  [°]:

Roof's variation from azimuth direction angle [°]:

Slanting roof

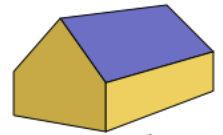

1 Roof ridge height [m]

2 Down spout's length [m]

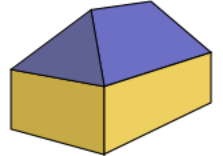

3 Verge's length [m]

4 Roof ridge's length [m]

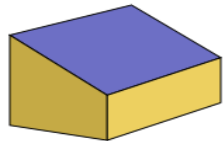

Saddleback roof

Hipped roof

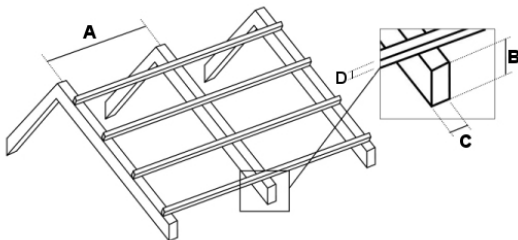

Single-pitch roof

**Dimensions and nature of the roof:**

Rafter roof

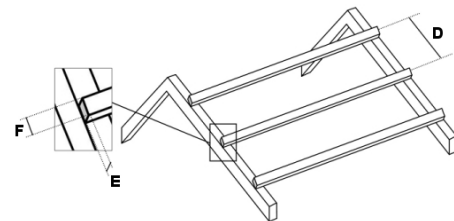

A Distance of rafters [mm]:

B Height of rafters [mm]:

C Width of rafters [mm]:

D Height of roof battens [mm]:

Purlin roof

D Distance of purlins [mm]:

E Height of purlins [mm]:

F Width of purlins [mm]:

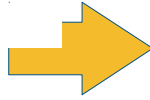

**Material:**  Wood  Steel  Concrete

Other:

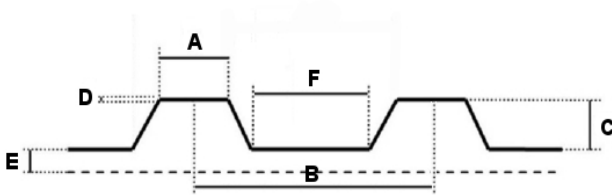

# Enquiry form roof top installation

## Roof covering:

- Tile     Shingle     Crown tile  
 Bitumen     Foil / Plastic  
 Trapezoidal

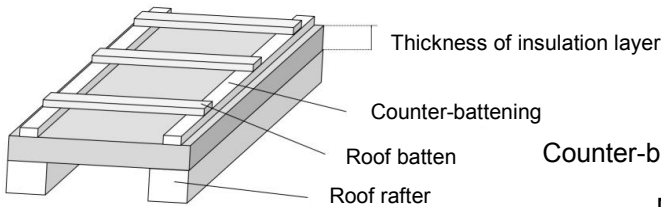

Model:

A [mm]       D Thickness of sheet [mm]   
 B [mm]       E Thickn. of insulation layer [mm]   
 C [mm]       F [mm]

## Insulation

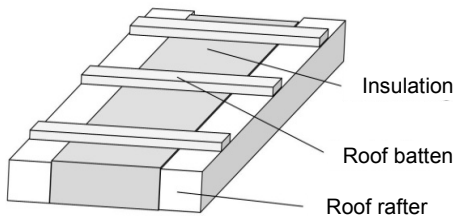

- On-roof insulation      Thickness of insulation layer [mm]:

Counter-battening  with  without

Material

- Insulation between rafters

Material

- no insulation

## PV Module's (panel's) decription

- Portrait orientation     Landscape orientation

Module manufacturer:       Capacity (Watt):

Width of module b [mm]:       Thickness of module t [mm]:

Height of module h [mm]:       Weight of module [kg]:

Number of modules per row:  modules • Number of rows:

**Our sales and engineering staff are always available to you to complete the form.**
