

**Safety Nut with flange NT SEC HCP**

Group: 1876

**Application**

The Safety Nut is equipped with a self-locking head made of steel (3 parts) being arranged in a conical shape. This offers the highest possible safety against unscrewing. The Safety Nut with flange offers the following advantages:

- ◆ Clamping effect directly at the thread – resilient, elastic
- ◆ applicable for all HCP and electrogalvanised screws and threaded rods
- ◆ improved thread moving due to the separated securing segments
- ◆ reusability after disassembling
- ◆ high temperature resistance

**Technical Data**

Material: Steel, Quality class 10, HCP

Type	D [mm]	W [kg]	Quantity [pack]	Part number
M8	17	0.01	50	<b>113062</b>
