

Cantilever Bracket CC

Group: 1354

Application

Ready-to-use bracket mainly for mounting pipes or canal to channels.

Installation

When used in combination with Slide Elements, a Tie Rod is absolutely essential for absorbing the forces running along the centre line of the pipe. For cantilever lengths ≥ 500 mm we recommend the integration of a prop-up.

Technical Data

Material: Steel, electro-galvanised

Type	L [mm]	Wall plate [mm]	b [mm]	W [kg]	Quantity [pack]	Part number
CC 41/41-200	196	134 x 40 x 8	100	0.79	10	191792
