

**Rubber Profile SAL EPDM sk**

Group: 1294

Application

Inlay for pipe clamps for galvanic separation (prevention of contact corrosion).

Scope of delivery

In rolls, self-adhesive on one side, coated with peel-off foil on the adhesive side.

Technical Data

Material:	EPDM, black
Hardness:	70+/-5° Shore A
Temperature range:	-40°C up to +100°
Resistant against:	Aging, weather, ozone and strong bases
Conditionally resistant against:	Acids, brines and wear out
Not resistant against:	Oils and petrol

Type	Width [mm]	Thickness [mm]	Roll [m]	Qty. [m]	Part number
30 x 1.0	30	1.0	20	20	188075
