

### Intermediate Fixed Point BE w/ Lining

**Application**

Soundproof Intermediate Fixed Point construction for secure absorption of shear forces resulting from branch pipe constructions. For direct fixation to concrete.

By means of intermediate fixed points the arising collateral forces of branch pipe sections are securely absorbed. Especially applicable for soundproof demands according to DIN 4109.

**Scope of delivery**

Pipe clamp Stabil D-3G with lining suitable for sizes 200 up to 315 with Mounting Plate provided with single thread connection and two Bolt Anchors M10.

◆ For sizes 40 up to 160 Fixed Points BE with lining are used.
